DETAILED ACTION

This Office Action is in response to the RCE and Amendment filed on March 16, 2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 11-28 directed to an invention non-elected without traverse. Accordingly, claims 11-28 have been cancelled.

Allowable Subject Matter

Claims 1-3 and 5-10 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art references, alone or in combination, do not show an array substrate for a liquid crystal display device comprising: a gate insulating layer on a gate line, a data line on the gate insulating layer, the data line including a first data line having a first width and a second data line having a second width overlying an entire length of the first data line, the second width is larger than the first width, a passivation layer between the first data line

Art Unit: 2815

and the second data line, wherein a pixel electrode is formed of the same material as the second data line. The closest prior art reference, Shin (US 5,828,433), only discloses that the source pad (data pad 2A) has a second layer (6A) over it and passivation layer (9) between the first data pad portion (2A) and second data pad portion (6A). Generally, the data pad is connected to the data line, but in this case Shin does not specifically disclose that the data line has a second data line portion overlying the entire length of the first data line. None of the references teach a passivation line between a first data line and a second data line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
